WHOLESALE PRICE LIST

OF

SEEDS

FOR MERCHANTS ONLY

OFFERED BY

ALFRED J. BROWN SEED Co.,

Growers, Merchants and Importers,

GRAND RAPIDS, - - MICHIGAN.

To the Trade.

WE are, to a large degree, experiencing the same difficulty in filling orders in full quantity on some varieties of seeds this season as we were a year ago.

The harvest of 1903 crops of sweet corn and vine seeds especially cucumbers, have been almost as disastrous as the harvest of 1902. It is, however, very gratifying to inform our friends and patrons that on account of our being large growers of seeds, we find ourselves in a much more fortunate position than we would be if we had to depend upon others for our supply.

With the exception of Sweet Corn, Cucumber, Musk Melon and some varieties of Wax Beans we expect to execute all early contracts in full, we will also make as large a delivery on the above items as our crops will permit.

PRICES.

The prices quoted are what we consider value at the time this price list goes to press, and we will, as far as possible, fill all orders promptly. We will, however, not be bound by these prices for any definite time, or hold ourselves responsible for the delivery of any items which may have previously been sold.

QUALITY.

In a season of great shortages one cannot be too careful in placing orders with reputable houses.

Seeds of questionable character will undoubtedly find their way into the hands of unscrupulous dealers, who will have an opportunity of offering them at reduced prices. The wiser plan is to pay a little more for seeds that will not bring sad disappointment to the planter. All seeds handled and sent out by us are subjected to a careful test as to vitality, so we know that all will grow if the season will permit of same. We also employ the best methods in the growing and harvesting of seed crops.

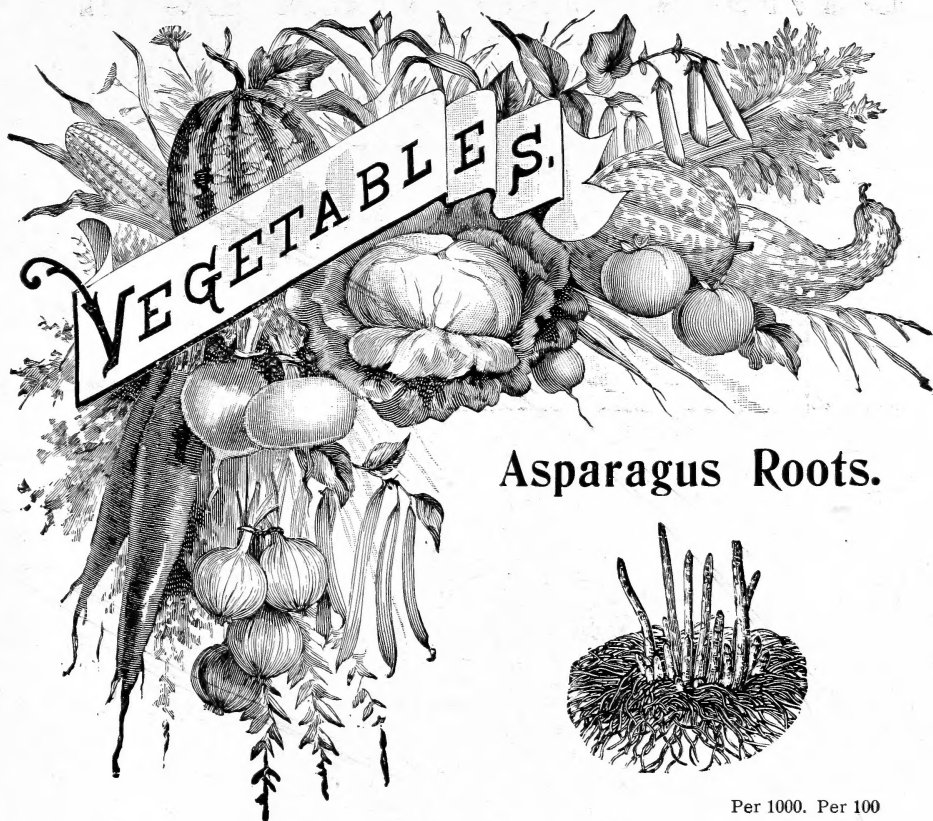

TERMS.

Garden Seeds net, June 1st, without regard to date of purchase, or can be discounted at the rate of one per cent. per month if paid before due. Clover and Grass Seeds, Field Peas, Onion Sets, Seed Corn and Grain, all net cash, no discounts.

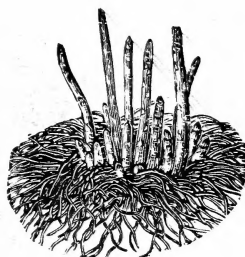

DISCLAIMER.

Alfred J. Brown Seed Co. give no warranty, express or implied, as to description, purity, productiveness or any other matter of any seeds, bulbs or plants they send out and they will not be in any way responsible for the crop, if the purchaser does not accept the goods on these terms, they are at once to be returned.

Mammoth	Crop failed

The Harvest of 1903 proved almost as disastrous for nearly all varieties of Sweet Corn as the harvest of 1902. Still we are not quite as bad off, and although we cannot execute all early contracts on a basis of full delivery, we will deliver as far as our crops will permit. As regards filling orders for prompt shipment, we can do so from stocks we secured from other growers in sections where the season proved to be more favorable. The prices quoted above are what we consider fair value considering the existing conditions, but are liable to change without notice. We can therefore fill orders only as long as our stocks will permit. Should, however, we discover more corn in the market than we now anticipate, we shall only be too glad of an opportunity of filling orders on a lower basis.
